

Career Training & Guidance

PREPARING STUDENTS FOR EMPLOYMENT & ACADEMIC PROGRESSION

The BITC social media project provides students with a platform to appear in the college's official media. It enhances their self-confidence, communication skills and digital profiles.

BITC organised talks and workshops to prepare students for career and academic progression. University representatives, employment consultants and industry practitioners visited the college and shared their insights and experience with the students.

Ashu Kumar recording a video resume

Shivangi and Mehak practiced speaking in front of the camera

Career consultants advising students on internship

Briefing by employment expert on career options in Singapore

What do our students say:

The video project improved my self-confidence. I hope it will attract attention of prospective employers.

Ramees (Kerala, India)

After the seminar, I know more about the academic progression in UK.

Gurmaj (Punjab, India)

Students' Achievements
